### NEW MEMBERS FOR THE POULTRY ASSOCIATION

Meeting Saturday of Members at  
Chamber of Commerce—Year Book  
to be Published Shortly

Secretary Powers of the Arizona State Poultry Association states that there will be many new members admitted at the February meeting of the association to be held Saturday at 2 p. m. at the chamber of commerce. Powers also stated that this would be the last opportunity for the old members who have not already paid their dues to become reinstated in time to have their names included in the Year Book which is to be published immediately following the February meeting.

Much interest is being taken in the poultry industry now, nearly all the hatcheries which make a specialty of day old chicks are reporting orders in advance, and the season is likely to prove a prosperous one.

At this meeting there will be a program in addition to the regular business. C. W. Alexander of Tempe, C. B. Wood of Phoenix and W. W. Curney of Mesa are down for thirty-minute talks on subjects that are of vital importance to all poultry breeders. There will be a large attendance, from present indications, as every one is invited whether members of the association or not.

## NEWCOMERS DAY PLANS ARE NOW ALL COMPLETED

Celebrators Will Gather at  
Chamber of Commerce,  
Climb Aboard Autos, See  
City and Then Visit  
State House

With the organization of an attractive program and the preparation of a number of "Welcome Newcomers" tags, the work of the chamber of commerce committee on the Newcomers' Day celebration is completed. Monday will be the large and glorious occasion for the welcoming of the late recruits—unless the rain hangs on.

In gathering for the celebration, newcomers and oldsters are requested to remember that the chamber of commerce is the board of trade, and that the building which now goes by both those names is at the corner of Second avenue and Adams street.

This is the program:  
The committee appointed to handle the above celebration has completed its plans, and arranged the following program:

The "Newcomers" will assemble at the chamber of commerce (board of trade) building at one o'clock on Monday next, February 15, 1915.

Automobiles will be on hand to take the "guests" on a short trip about the city and to the state house.

There the governor of Arizona will extend a welcome on behalf of the state.

Representatives of both houses of the legislature will also be present to extend a welcome.

Officials from the different organizations will attend representing their different associations.

The automobiles will arrive at the capitol building at 2:15, when the addresses will be made. After the address of welcome the governor will receive the visitors on the lawn in front of the state capitol.

The governor will have the First Regiment band in attendance to add to the occasion.

Autos will take the visitors back to the chamber of commerce building and the celebration will then be over, allowing those who reside in the country, time to return before evening.

## TWO MINING CLAIMS GET THEIR PATENTS

Two mining patents were issued through the local land office yesterday. They were:

For Henry Schaeffer, the Hamlin mill site and Emerson lode mining claim in the Wallapai mining district of Mohave county, and

For the Palo Verde Copper company, the Shep, Wonder and Mayflower lode mining claims in the Saddle Mountain mining district of Maricopa county.

## TEMPE TO HAVE GOOD ROADS ORGANIZATION

Southerners Prepare to Receive Organ-  
izer Kinker at Mass Meeting  
this Evening

Tempe will be the scene of another good roads meeting tonight, when a mass meeting will be held at the city hall, for the purpose of organizing a local branch of the Arizona Good Roads Association, in affiliation with the National.

Mayor George W. Prizell will preside, and Walter Wilbur and J. B. Cook will assist in the work.

From Phoenix, I. J. Kinker, national organizer, who is now working in Arizona, will make the trip to Tempe, accompanied by members of the chamber of commerce good roads committee and by officials of the Arizona association.

The meeting will be called to order at 7:30.

## BOWLING LEAGUE GETS AWAY TO GOOD STARTS

No Line Up on Future Strength Can be  
Gained, But Gas Team Displays  
Early Speed

### STANDING OF THE TEAMS

Team	Won	Lost	Pct.
P. G. & E.	3	0	1.000
Y. G. Dorn	2	1	.667
Project	2	1	.667
Stars	1	2	.333
McNells	1	2	.333
Union Oil	0	3	.000
Creightons	0	0	.000
Printers	0	0	.000

The Y. M. C. A. bowling league has got away to a good start, and now that the first series is over, the teams are beginning to be lined up in the order of their early strength. But no team—not even the Pacific Gas aggregation, which leads, has won enough to acquire a commanding lead.

The schedule gives the players four nights a week and five nights every three weeks, Thursday being the off day. Tonight's game will be played between the Creightons and the Printers, the only two teams that have not yet shown.

## MOST CRITICAL AUDIENCE YET

Young Indian Pupils to See  
Squawman as Republic-  
can's Guests; Their Com-  
ments Will Be Most In-  
teresting

The big chief and his interpreter will have to talk their most Indianesque talk tomorrow afternoon at the Squawman matinee, for there will be present many young sons of Arizona's tribe, as the guest of The Republic, under special arrangement with the Columbia management. Believing that a play, in which the life of the squawman is so interestingly portrayed, could not but appeal to those young wards of the United States, the pupils of the Indian school, and the former pupils about town, The Republic, co-operating with Mr. Ed. Redmond has made arrangements to distribute free tickets to all who apply for them tomorrow morning. Tickets will be given out to all young Indian boys and girls who apply for them, and probably a batch of them will be sent to the school for distribution there.

The lines, which the chief and his interpreter read in the Squawman, are supposed to be real Indian words, taken from the original book of the play. It is hardly probable that the youthful Americans will understand the "Squaw" talk, but they will certainly be able to detect the accent, if it is faithfully rendered—as the management says it is.

A section will be reserved in the downtown portion of the theater exclusively for the Republic's guests.

It will be interesting to note the comments of the bright pupils, who will see the play for the first time.

## HANNA TO BE MEMBER

(Continued from Page One.)

ject is represented by a water users member and a reclamation service member. The eight so named will select three men, not in any way connected with the service, and out of these three, the secretary will pick the man who is to be that "third member" for all four projects. In this connection, it is stated that the hearings and investigations into cost matters will have to be conducted in rotation. Probably the accountant, who, under the old plan was to have been that third member will be merely an office employee of the boards.

**Yuma Backs Up**  
Yuma's refusal to name a water users member is attributed to two things. The present inability to pay an engineer, and a refusal on the part of the irrigators to accept the secretary's plan.

**Rio Grande Not Ready**  
Because the storage works on the Rio Grande project is just in the middle stages, there is some talk of permitting the cost reviewers to pass that project by until the work is nearer completion.

**Lane's Instructions**  
Secretary Lane's instructions convey his idea of the qualifications for the third member, who shall be common to all four boards. They are very drastic requirements:

The board of review for each project will consist of three members as follows: One to be selected by the water users of each project, one to be appointed by the reclamation service, and the third member selected by these two in the following manner:

In each of the divisions of the reclamation service, president over by a supervising engineer, all of the representatives selected on each of the projects by the water users and the reclamation service shall unite in nominating three persons, from whom the secretary of the Interior will select a third member to serve on all of the boards within the division. The person so selected shall not be a water user on any project or directly or indirectly interested in the project, and shall not be a person who is now or has at any time been in the employ of the reclamation service. Should the same person be selected to serve on more than one local board by either the reclamation service or the water users he shall be entitled to cast a vote for each project that he represents in selecting the third member. The persons so selected shall be reported to the secretary of the Interior as nominees on or before March 1, 1915.

The local boards of review shall be organized and ready to begin work on or before April 1, 1915, and shall submit their respective reports to the secretary of the Interior on or before July 1, 1915, each report to be accompanied by a complete copy of all proceedings.

When Baldwin took charge of the construction at Elephant Butte, he re-arranged the scenery almost completely—reorganized the work to his liking, and then he went out on the "work" and saw personally that his instructions were carried out. He is described as one of these "busy all the time" fellows.

In his office, Mr. Supervising Engineer Baldwin will have charge of construction and maintenance and operation work on half a dozen of the most important projects in the west—which means in the whole world. He will have broader work than heretofore, but will still retain his chance to get right in the midst of things.

In the information received from Washington yesterday morning, concerning the appointment of Mr. Hanna as a service member of the cost review board, it was stated that the retiring supervising engineer would take his departure from his home in Iowa at the end of his allotted period here, but would return as soon as the cost review board is ready to organize. This is another evidence of the fact that Hanna is the "handy man" of the U. S. R. S.

Mr. Baldwin's successor on the Rio Grande work has not yet been announced by the reclamation service. One of the workers in the engineering department on the biggest New Mexico project, however, will be Oro McDermitt, who, for the past two years has been in charge of the maintenance and operation department of the Salt River project as assistant project manager.

## LEECRAFT'S LION LOUDLY ROARS

Popular Manager An-  
nounces Radical Change  
of Program. The Lion  
Will be Home of all Ro-  
maine Fielding's Pictures

Los Angeles, Cal., Feb. 11.  
Maitland Davies,  
Dramatic Editor Republican,  
Phoenix.

Lion will have General Film Service including all Romaine Fielding pictures, all Essanay comedies with Charles Chaplin, also three reel, Edison and Vitagraph features, Vitagraph comedies and the Kalem Railroad feature Hazards of Helen with Helen Holmes, Hearst Pictorial News and Selig Animal features. Now we will make the Lion roar.

W. B. LEECRAFT.

Patrons of the Lion theater who have been wondering what had become of the enterprising head of that popular institution during the past few days, will have their curiosity satisfied by the above wire from Los Angeles. It tells in a very few words just why Mr. Leecraft has not been in evidence.

Ever since Romaine Fielding and his troupe of Lubin players came to town, the public has been anxious to know where the pictures taken in Phoenix would first be shown. Naturally there will be a greater interest in these films than in any others shown here and they are bound to prove a tremendous drawing card. Every picture that Fielding appears in is popular and those which will carry the brand of the Salt River valley will be doubly so.

The very sweeping change in the program to be offered by the Lion will come as a surprise to its patrons; and with such strong features as are outlined it bids fair to prove even a more potent drawing card than that which has carried it to its present great popularity.

## COMPANY WOULD SELL COMMUTATION BOOKS

Application for permission to sell  
coupon books of tickets from Phoenix  
to the Indian school road was filed with  
the corporation commission yesterday  
by the Phoenix Railway company.

The company, which desires to put this arrangement into effect by way of experiment, proposes to sell forty tickets for \$2.00, making the cost six and three-quarters cents per ride. The cash fare now in effect is 10 cents. Ticket books would be good for four months from date of sale and could be used by any members or dependents of the same family. The car company asks that it be permitted to try the arrangement for six months. The commission has the matter under consideration.

## NEW ENGINEER

(Continued from Page One)

goes down into the excavation pits and shows the workmen how he wants things done.

When Baldwin took charge of the construction at Elephant Butte, he re-arranged the scenery almost completely—reorganized the work to his liking, and then he went out on the "work" and saw personally that his instructions were carried out. He is described as one of these "busy all the time" fellows.

Don't let your **WHITE** clothes turn **YELLOW**

Every good housekeeper knows that linen will get yellow unless washed by a laundry "that knows how."

Have you ever sent table linen to our laundry? If so, you must have admired that beautiful snow-white finish we get. It's a finish you don't get at many laundries and is impossible to obtain in the home wash. Send your flat work to us. It costs no more than to do it at home and saves you all the trouble.

## Arizona Laundry

## YALE NAVY GETS BUSY; BIG SQUAD TURNS OUT

(Special to The Republican)  
NEW HAVEN, Conn., Feb. 11.—The Yale crew candidates were called out for active service today by Captain

Bayne Denegre. There was an eager crowd of candidates on hand, for the Yale navy has expended its plans to attract. New buildings mark the most elaborate lot of rowing equipment in any American college. The navy now has a handsome dormitory for the varsity, accommodating some 30 oarsmen, a large farmhouse adjacent for the freshmen, a clubhouse at the wharf, and finally a new boathouse capable of housing and repairing all the shells. During Easter vacation, the first and second Varsity eights will go to Philadelphia, meeting the University of Pennsylvania on the Schuylkill on Saturday, April 3. Yale has lost the main dynamo that propelled the varsity eight to victory last year, through the graduation of Jack Appleton. Henry Coe of New York has the stroke oar to replace him. Sturtevant, Sheldon, Meyer and Adams are veterans sure of places, and there is much other excellent material this year.

Hire a little salesman at The Republican office. A Want Ad will see more customers than you can.

**ORDINANCE NO. 35.**  
AN ORDINANCE CREATING THE OFFICES OF DEPUTY CITY CLERK, FOR THE PURPOSES OF REGISTRATION OF QUALIFIED ELECTORS OF THE CITY OF PHOENIX, FOR THE PRIMARY AND GENERAL ELECTIONS, TO BE HELD ON MARCH 6 AND APRIL 6, 1915, RESPECTIVELY, AND AUTHORIZING THE CITY MANAGER TO MAKE SUCH APPOINTMENTS TO SAID OFFICES AS HE MAY FIND NECESSARY.

BE IT ORDAINED BY THE COMMISSION OF THE CITY OF PHOENIX, AS follows:  
Sec. 1. That there be, and hereby are, created the offices of Deputy City Clerk, for the purposes of taking care of the registration of qualified electors of the City of Phoenix for the primary and general elections to be held on March 6 and April 6, 1915, respectively, and of properly carrying out the provisions of law relative to such registration; which said deputies, when appointed, shall exercise and perform, with reference to said registration, all the powers and duties now conferred and devolving by law upon the City Clerk.

Sec. 2. The City Manager is hereby authorized, empowered and directed to employ and appoint such person or persons to the said office or offices of Deputy City Clerk, as he may from time to time find necessary or expedient for the proper performance of the duties now required by law to be performed by the City Clerk in relation to said registration; and to fix the compensation of such person or persons at such reasonable amounts as he shall determine; provided, that whenever feasible, the preference shall be given in making such appointments to persons now in the employ of the City.

Sec. 3. Whereas, it is necessary that adequate facilities be given to the registration of qualified electors of the City of Phoenix for the primary and general elections to be held on March 6 and April 6, respectively; and

Whereas, the immediate operation of this ordinance is necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, and this ordinance shall be in full force and effect from and after its passage by the Commission and approval by the Mayor, and is hereby exempted from the referendum provision of the city charter.

PASSED by the Commission of the City of Phoenix this 10th day of February, 1915.  
APPROVED this 10th day of February, 1915.

GEORGE U. YOUNG,  
Mayor.

FRANK THOMAS,  
City Clerk.

**GOOD ROADS BOOSTERS**  
The good roads committee was present Wednesday evening at the Commercial club rooms, coming from Chandler in the evening. However, the news of their coming had not been made known and there were only a few members of the club present. Arrangements were made for another meeting in the near future which will be announced in due time so that a representative attendance may be had.

**RAINY SEASON ON**  
A splendid rain continued falling in Mesa throughout the day yesterday. It was especially welcomed by the ranchers who have recently sowed grain since the moisture will practically insure a good crop.

**FAVOR MID SUMMER EXHIBIT**  
Since the announcement of the plan to put on an agricultural exhibit in Mesa this fall, there are a number of local residents who are of the opinion

that a mid-summer fair could also be undertaken with splendid results in that it would pave the way for the exhibit to be held later in the year. It is held by those favoring the mid-summer exposition that it is the proper time for the securing of flowers, fruits and other products of the soil and that the exhibit could be retained.

At this meeting there will be a program in addition to the regular business. C. W. Alexander of Tempe, C. B. Wood of Phoenix and W. W. Curney of Mesa are down for thirty-minute talks on subjects that are of vital importance to all poultry breeders. There will be a large attendance, from present indications, as every one is invited whether members of the association or not.
